

## BOTTOM PAINT

### SUPERFAST HULL MAINTENANCE

#### INCLUDED SERVICES:

- 

**1. Hull cleaning**  
Removes all types of fouling attached to the bottom part of the ship.
- 

**2. Antifouling**  
Application of antifouling paint to slow the growth and/or facilitate detachment of subaquatic organisms
- 

**3. Shining**  
Hull & superstructure washing (polishing not included)
- 

**4. Minor aesthetic repairs**  
Fixing of small scratches & bumps

#### WHY?

- Extend the yard period and enjoy Med's full season.
- Subaquatic organism affects dramatically the vessel's performance and consumption by adding weight to the hull and spoiling its aerodynamics during navigation.
- Improved durability: avoid accelerated hull corrosion
- Fast travel from/to Azores Islands
- Discover Vigo & surrounding areas
- Seasonal 20% discount

About **1 week**  
to perform the whole operation
